

Associate in Applied Science in Banking and Finance

Careers in Banking and Finance

Demand for people with banking/finance backgrounds is found in banks, finance companies, auto dealerships, and insurance agencies. Position titles for graduates from the associate degree program include loan analyst, credit evaluator, accounts payable/receivable clerk, teller, proof operator, sales associate, or bookkeeper.

Program Learning Outcomes

These learning outcomes are established for the Banking and Finance Program at the associate degree level:

1. Prepare graduates to obtain employment in the field of banking or finance and to advance in their career, and to adjust themselves to the rapidly changing field of technology
2. Prepare graduates to adapt to emerging and rapid changes in banking and technology and to be able to engage in lifelong learning.
3. Graduates will demonstrate an understanding of the banking process, the check clearing process, as well as have an understanding of the Federal Reserve System.
4. Graduates will understand the loan process including the requirements and rate calculations for Commercial and Consumer loans and the Time Value of Money.
